

## FOREWORD

I was delighted when I received a request from James Wiley to write a brief foreword to this book, because, for many years, I have admired his incredible knowledge of accounting and finance. Not only has he been a pillar in the academic community, but he aspires to make a positive impact on the lives of those willing to seek knowledge. This book is long overdue.

Looking through this magnificent guide, I am absolutely amazed at James' work and what he achieves with his mind. It is more than an easy to read guide of accounting concepts. It is a mine of accounting information, demonstrating his teaching techniques through excellent examples and it is a source of inspiration and information for those who aspire to be CPAs and business professionals. In short, James' book is unique and surely a work to treasure for anyone who is interested in excelling to the next level. So read it, enjoy it and learn from it. Thank you James for producing such a basic easy to read master work.

Sincerely,

A handwritten signature in black ink that reads "Lee Jenkins". The signature is written in a cursive, flowing style.
